A physician team of Geneva proves that time does not exist at the atomic level...

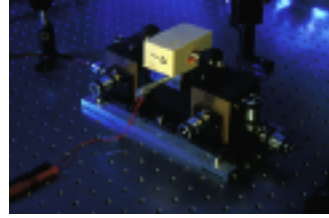

Team of the GAP (Group of Applied Physics) of Geneva.

035213

Laser beam device.

035215

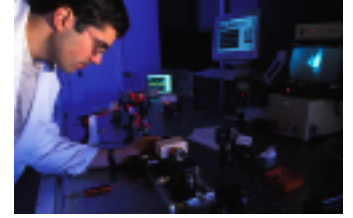

A crystal lets photons' pairs pass only if they have a given wavelength.

035216

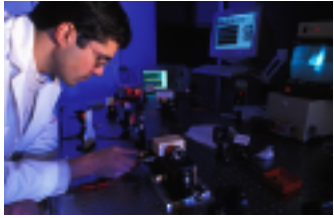

Prof. Nicolas Gisin, head of the GAP (Group of Applied Physics) of Geneva.

035217

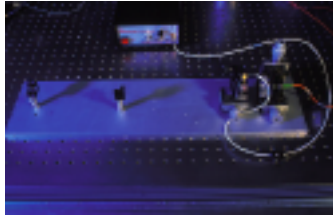

André Stefanov adjusts the instruments.

035218

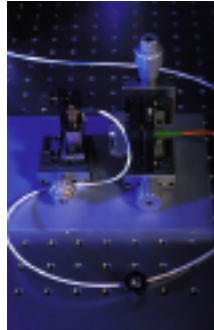

André Stefanov adjusts the instruments.

035219

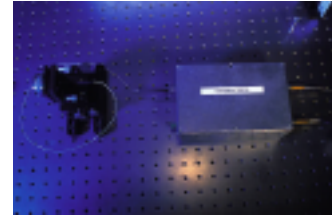

Interferometer device.

035220

Close-up of the interferometer.

035221

Coupler device separates photons' pairs and turn them toward two fibre- optics.

035222
